Re: Legal Services Regulatory Authority – Public Consultation Notice on Multi-Disciplinary Practices

Dear Sir/Madam,

The Mental Health Commission (the Commission) welcomes your invitation for written submissions in relation to multi-disciplinary practices in the state.

The Commission does not propose to make any submission in relation to Section 119 save that multi-disciplinary practices should benefit clients in terms of having combined expertise – legal, accounting and audit – in one practice which would greatly increase efficiency and reduce cost.

Yours sincerely

Patricia Gilheaney
Chief Executive
